Professional Summary

I'm a Detail-driven Frontend Engineer with award-winning internship experience (Best Frontend Intern, 2023) and a proven track record of designing, building, and scaling user-centric web applications. Expert in React, Redux (with redux-persist), Next.js, Tailwind CSS, etc. I've spearheaded critical features, from WhatsApp Chatbots and Broadcast workflows to a no-code Page Builder. I've delivered seamless UI/UX enhancements that drive engagement and retention. Adept at refactoring legacy codebases into responsive, maintainable architectures, I excel at transforming complex requirements into intuitive interfaces. Passionate about continuous improvement, I thrive on tackling edge-case challenges and laying solid groundwork for future innovations.

Professional Experience

2024/02 – present

Frontend Developer

Serlzo (*Your All-in-One Marketing Automation Tool*) [🔗](#)

- Led development of major features: WhatsApp Chatbot (Auto-responder), Broadcast with reporting, Webhook integration, and Serlzo-wrap (Spotify-style insights)
- Delivered UI and functionality for Serlzo Education and Bulk SMS modules
- Built and later migrated Page Builder to Redux with redux-persist for reliability
- Improved UX flows: streamlined interface, lead form group delivery, profile setup, contacts importation, etc
- Fixed critical signup issues (IP mismatches) and enhanced WhatsApp settings with validation
- Refactored layouts using CSS Grid for cleaner, maintainable code
- Designed responsive marketing pages (Pricing, Masterclass, etc.) in line with brand
- Handled maintenance, bug fixes, and foundational work for future features

2022/11 – 2023/07

Frontend developer Intern

Enugu, Nigeria

Genesys Tech hub

- Completed challenging tasks weekly.
- Published quite a number of technical articles.
- Collaborated on different projects in cross functional teams using the Scrum methodology.
